

COVID Mitigation Denied – Event Cancelled

It is with the utmost disappointment that I have to announce the cancellation of the 2021 Frozen Otter. Although the North Kettle DNR was on board, the powers that be decided against approving our COVID protocols and we were not able to work with them to come to a solution. Karen and I are completely devastated by the news as our excitement was growing, hearing how all of you were looking forward to racing and how we were going to pull this off amid everything going on.

That being said we have a couple of options for all of you.

1. Defer your registration to next year. This not only secures your spot, but also helps us immensely since we have a good deal of sunk cost already.
2. Refund your entry fee. For those of you that have acquired your bib from someone else, I suggest the defer option as we cannot do a direct refund. Please contact us if that is an issue.

Please reply to this email with your decision.

I want to thank our record number of volunteers who were going to be out there supporting all of you. They are all truly amazing people to be willing to suffer along your side.

We sincerely tried our best to make the race happen for all of you. I have a pain in the pit of my stomach, and we both have tears in our eyes writing this. I know 2021 will be a better year and we will set our sights on a new 15th anniversary race in 2022 (January 15th 2022).

Sincerely,

Rod and Karen McLennan
Fat Otter
